6 NEWES

HERE ARE THE ED LINES

The sun is out, the sky is blue, and here's our May issue, just for you! Oh, the joys of spring. The Ozric Tentacles are warbling away merrily on my cassette player, the C-Forcers are beavering away like the busy bees they are, and I've just been blasting away on two of the most excellent reader games I've seen to date. It's too late in the day to get either of them on the Reel Action cassettes for this ish they only came in this morning but watch out next month 'coz we'll be bunging the blighters on then. Someday, all SEUCK games will be made this way...

Meanwhile, not all is quiet in the wide world of Commodore. Traditionally, this is the period when things start winding down for the summer when, it's reckoned, gamesters take to the beach or back garden to sun themselves and shun their C64s. Games are arriving almost every day, though, and tantalising news of forthcoming releases reaches our ears on a regular

basis.

To be honest, the continued success of the Commodore 64 has taken a lot of industry luminaries totally by surprise. With all the hype and hubbub surrounding the consoles, many software developers got suckered into believing the trusty old 64 was on its last legs and not worth producing games for. Ha! Our growing circulation (it's almost doubled since Issue #1!), coupled with a postbag bulging with new devotees to the 64 scene, is testimony to the truth.

May The Commodore Force Be With You. Always!

IAN OSBORNE

There's a right and a wrong way to do a license. You could create a boring. derivative pile of tosh that'll sell anyway (Lethal Weapon), or you could create a polished game, taking the machine to its limits (Trolls). If the Ocean outing sells more, I'm resigning

In fairy tales, smelly old frogs often turn into handsome royals, but it's not often the Troll under the bridge turns out to be an angelic dwarf with a stunning hairdo. CHRIS 'BILLY GOAT GRUFF' HAYWARD dashes across without paying the toll...

rolls are a unique if obscure breed of creature. Known for their cheeky cherub-like faces and vivacious tinted manes, the brightly-coloured beings of Scandinavian folklore finally make their C64 debut in a sparkling platform game.

All tales of old start with a mystical setting, and Trolls is no exception. Our hairy hero began life in a quaint toy-makers workshop deep in the snow-capped mountains where all was at peace. Yet one night, with the hearth embers gently flickering and snowflakes whispering upon the window slats, the solitary Troll was awakened — for unlike the spinning tops, wooden cars and action men, the cute

could do with a few power-ups, but this doesn't stop Trolls

being one of the best platformers ever on the C64. The scrolling's first-rate, the animation faultless, and the

graphics... er — wow!
I don't agree with Chris about the energy bar. Instant death makes the game far more immediale, and you start with plenty of lives anyway. Well thought out levels and baddles that don't ressurect when you leave the screen make Trolls a worthy HURRICANE HIT. But don't take my word for it — check out the exclusive demo on this month's covertape!

September 1

The game's a platform arcade quest where you visit four mythical worlds with two levels in each. The Troll you control (no sad pun intended) must leap and bound across the platforms (and swim in later levels) collecting the distressed children to progress to the next area. As ever, the nasty creatures of evil are out in force, each intent on making your task all the trickier.

Extrolling the

The main character may seem odd, but he's not a patch on some of the ludicrous baddies scattered around. Walking pencils, hat-dwelling rabbits and bouncing blobs — weirdness personified! Some of these fiends can be disposed of by simply jumping on them (their ghastly grins reduced to transfixed gasps as they plummet off screen), but others are a lot tougher and the only way to remain intact is to avoid them. There's also a plentiful supply of point collectables, the most common being balloons which burst on impact revealing a tasty item to boost your score. Not every kiddle has to be rescued to continue to the next land, but if you bounce to the end without any at all access is denied. Persevere though - without the younger generation, the entire Troll race will eventually disappear, and life without those haircuts would be positively tragic.

Above: Bubble trouble on Level One—those detailed backdrops don't actually move, but they're none the worse for the Right: Fable World, and our intrepid Troll's about to bump into, well, who the hell is that s'posed to be anyway!?

Woodland animals with floppy ears are enough to make most joystickbashers barf, but MILES 'SWEETIE-PIE' GUTTERY'S always cuddling his fluffy bunny, so we made him wear a pair of platform shoes and check out the very best C64 cute-'em-ups...

What sets Flimbo apart from the masses is its graphics, which are as close to arcade quality as is possible on the C64 the parallax is phenomenal! Aidd to this a brilliant - atmospheric soundtrack and some snazzy presentation, and you have a wonderfully compelling piece of software. It's now available on budget so no Commodore owner has any excuse for not having a copy.

Robocod was roundly applauded on the 16-bit machines, but the C64 version's a different story. MANIC MINER **Software Projects**

oah, check this out! One of the first home computer games ever, and it's still a classic. The last of the great heroes, Miner Willy, is looking for treasure. Down the mines there are untold riches, but with a

plethora of patrolling nasties, a myriad of collapsing platforms, and countless almost-impossible leaps it's a quest only the most intropid of people would attempt. MM looks its age, but in playability terms it's timeless. With incredibly simple controls and unbelievably tricky screens, it's more addictive than a lorry-load of very addictive things indeed.

WOS

ub and Bob are back in the sequel to Bubble Bobble or at least one of them is. The computer conversions of this Taito coin-op did away with the two-player option. Not that this affects the game too much Rainbow Islands is still a brilliant romp!

Filled with amusing baddies, power-ups and heaps of fruit RI also features one of the most original weapons ever seen in a computer game. Firing rainbows to dispose of loes and climbing over them to get to seemingly unreachable platforms is indescribably addictive. Two-player option aside this is a near-perfect conversion in every

conceivable respect. Pity the sequel. Parasol Stars won't make it to the C64!

The main sprite's really good with some amusingly exaggerated animation, but the game's let down by its difficulty level. Pixel-perfect positioning and spot-on timing prevent you getting anywhere, and restart points are tew and far between. If you think you can stand the

frustration factor, there's a half-decent game lurking in there. Unfortunately, you need the patience of several well disposed saints on tranquillisers to find

WONDER

Irst impressions of Wonder

Your nappy-clad character's large but badly drawn and many of the backgrounds are either too garish or too drab. Things improve after a few plays, but not enough to merit jubilation.

An annoyance rears its ugly head when you die. You lose your weapon, and if another one doesn't show up pronto you've got

no chance! Having said that, the game's still a bit on the easy side. A conversion of a prehistoric coin-op that's really showing its age.

Released shortly after the utterlyly spondicious Rainbow Islands, this colourful vertically-scrolling leap-about is as blatant a riport as you can get. The similarity between thinis and RI doesn't extend to the quality, though, After a few plays you realize there's not the same a depth of appeal or jolly graphics. It could be a worse, but it's slil a bit quack.

RICK DANGEROUS • Firebird

Dangerous was released some time ago to a mixed reception from the media. I must admit I really enjoyed it. Its mixture of mapping, action and puzzling is pitched just right, and you get a lad further with every play. The comical main sprite leaps and bounds very responsively, disposing of various chubby denizers by either shooting them, blowing them up or jabbing them in their pot-bellies with his stick. Atmospheric graphics and a nice sprinkling of humor put Ricky up there with the best of them.

Core, the team responsible for the RD games.
Unionunately Impossamole hasn't Rick's appeal.
Making headway can be injuriatingly tricky, and with only one life, trustration's never more than a whisker away. A bog-standard effort with little to lift it above the average.

CHUCK ROCK

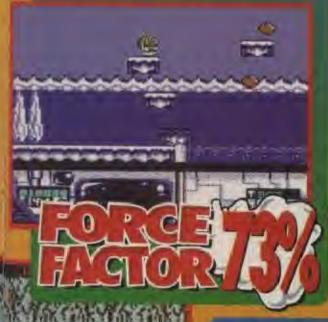

aveman capers are the order of the day with Chuck Rock's Neanderthal tomfoolery. With a massive chin and an even bigger belly, you must guide Chuck through the prehistoric landscape, chucking rocks (natch) and using the odd yet addictive belly-butt to dispose of pesky dinosaurs. The excellent cartoony graphics have you in stitches from start to finish, so don't delay — grab a rock and start chucking, er, throwing, I mean, oh nadgers, just buy the game!

TURBO THE

Hi-Tec/ CodeMasters

urbo's a miserable looking geezer who must negotiate a horizontally-scrolling cartoon o'rama. The sound's barely adequate, but the backgrounds add interest. The game's strongest point is the main sprite. Turbo himself is tull of character, and the way he pants and pulls his way around is amusingly andwaring. The sad look on his face is almost enough to ming lears to your eyes. Gameplay can get a little repetitive, but it's certainly more fun than having a portion of steak and chips welded to your dog.

Plenty of useful and attractive power-ups can be found, making The New Zealand.

The torture screens are totally inspired, but some of the other sections can be monotinous. By itself this wouldn't be agreat problem, but the game's big letdown is the lack of a password system, making progress frustratingly stunted. Despite its flaws it's still an essent al buy—watching the different methods of tuzzy extermination is almost worth the asking price alone.

Ever wondered why a C64

game that was advertised yonks ago still hasn't hit the shelves? IAN 'CRYSTAL

BALL' OSBORNE just might have the answer...

ife goes on, wheels turn within wheels, and games come and go... but some never arrive at all! Why is this, I hear you ask? Who goofed? Who lied? Who's nicked my

bloomin' pen again? (oy, Shields...). In the battlezone that is the Commodore software market casualties are inevitable, but some troops never even make the battlefield. Here's just a few of the games that went AWOL before release.

ALLOYRUN — The sprites and backgrounds looked really good.

Starline

rogrammed by acce coders Ashley Routledge and Dave Saunders, this 1987 outing hit the rocks when the publishers ran into finanncial difficulties. The game was never produced, and it isn't clear

who actually owns it. We couldn't track down a complete copy, but we did find a demo; version, featuring parallax backgrounds and a few sprites.

If anyone intended to son this mess. they'd have done so by now. It's extramely unlikely to emerge

ARMALYTE —The

sequel to this ace blaster

will never be released.

6

tunning sequel to one of the best C64 blasters ever, Armalyte 2 was due to be programmed by Cyberdene. They put together a few ideas (the main ship was to be more colourful, the aliens more intelligent, and a power-up shop was to be included. Unfortunately the programmers were contracted to System 3 as well, and in the end they just didn't have the time to program Thalamus's game.

Programming was never

WHO AND THE Micropower

can't understand why this one was never released. Okay, it's a bit slow, and the shoddily animated main sprite looks nothing like Doctor Who (any of them), but at the end of the day it was a reasonably neat platform arcade adventure — it even had a 'save game' feature! Scheduled for release way back in 1986, what happened to it is anyone's guess.

The licensing agreement has probably expired by now, so it's extremely unlikely that it'll hit the shelves

nother potential Cyberdene sensation. Deadlock featured a wellard geozer in a space suit blasting seven shades of shrapnel out of anything and everything — a sort of cross between Hawkeye and a very violent Impossible Mission. Four month's hard work resulted in a demo that was virtually unplayable, and designer and graphics guy Robin Levy was pulled oil the project to work on The Last Ninja III.

Deadlock was shelved and the team never got around to linishing it.

EADLOCK

System 3

If could come out I suppose, but the longer it sits doing nothing the less likely this is, and it's almost three years old already

Double Density

hat's a potentially ace game like this doing on an obscure continental budget label? No one seems to know who Double Density are, let alone how to contact

affected several others

FLIPPIT Soundware

curious little puzzler, Flippit had you turning squares one at a time in order to reproduce a given pattern. Of course, life wasn't that simple, as each square you turned also

fans of the Rubiks Cube would've felt right at home. Flippit wasn't a bad game, but its memory-test gameplay would hardly have set the world alight Soundware have no immediate plans for the garne, but haven't ruled out a release.

It might come out, it might not.

ye-popping follow-up to The Great Giana Sisters, a complete change of graphic style didn't save Hard 'N' Heavy from the wrath of Nintendo's lawyers. At the end of the day it was still a Mario clone — the console company put the kybosh on this one even before it hit the shelves.

Forget it!

eye of the MOON **Mike Singleton**

he third part in Mike Singleton's legendary Lords Of Midnight trilogy. Eye Of The Moon had Morkin searching for the Eye, a device used to look into the future, so the dying Luxor could see what would become of his kingdom. Twice as big as Doomdark's Revenge, the game featured twelve kingdoms, each with its own sub-game. Mike intended to write it back to back with Quake Minus One, but the latter proved a more mammoth task than expected

The release of Quake coincided with BT's buy out of Lords/Doomdark's publishers Beyond, and Mike was asked to write their Star Trek license, and after that Dark Sceptre - Eye was put on ice.

Many of the ideas in Eye were used in Mike's 16-bit classic Midwinter II — Flames Of Freedom, so the original game is unlikely to emerge

he final part in the Gauntlet trilogy was to be a 3D affair, the perspective owing more to Pacmania and 3D Ant Attack then the previous overhead offerings. Due for release in the Summer of 1991 the game suffered massive delays when the original programmer fell ill and US Gold couldn't get the game off the development system and onto the tape Due to the delays, when ready it will be released on the KIXX budget label, and never as a full price game

3D Op Wolfish blaster featuring 2000. AD's Barbie lookalike Psi-Judge Anderson gunning down the evil Judge Death's zombie hordes. Unlike previous games of this genre. Judge Death actually showed your hand clasping the lethal Lawgiver (gun favoured by Mega City One Judges), though aiming and shooting was via the usual crosshairs

As far as we know, Pirahna are no longer trading, though as the game was started live years ago and never finished. It's unlikely to start shooting up the charts:

Unofficially known as Katakis 2, rumour has it that the programmer was none other than Turrican-creator Manfred Trenz, though there's no mention of him in the program. Packed to the brim with amazing power-ups, great backdrops, epic soundtracks and incredible parallax scrolling, it's a real shame this one never made the shelves.

Unless someone knows how to get in touch with Double Density, we'll never see it released over here.

his game was in fact released, but

was quickly deleted with more than a little help from Nintendo's legal eagles. The Great Giana Sisters was basically a rip-off of Super Mario Bros, featuring an almost identical layout and power-ups that differed only graphically (eg Mario's mushroom became Giana's beach ball, but they served exactly the same purpose). Nintendo are very precious about their games, especially the Mario series, which they won't even license for conversion — lawsuits were inevitable.

If you're lucky you might find a copy at a car boot sale, but this one will never return to the shops.

KATAKIS

ne of the best blasters ever, it's not too hard to see where the inspiration for Katakis came from — a blatant R-Type clone, it featured almost identical backdrops and power-ups, right down to the bolt-on/send-ahead drone that does your dirty work for you (or at least some of it). Official R-Type licensees Activision were outraged, and took out a copyright injunction preventing its release. They went on to release an inferior version of the coin-op (but at least it was called R-Type...).

The game was re-written and released under the name *Denaris*, but it was nowhere near as good.

• MANIC MINER — His zany quests ended with the sequel, Jet Set Willy

MINER WILLY MEETS THE TAX MAN

Matthew Smith

ncredibly rich as exploits in Manic:
Miner and partying away in Jet Set
Willy, the third instalment was to see
our intrepid hero up against the bane of
the nouvelle riche, the tax office!
Featuring yet more cutesy collect-erm-up
action, it would've been interesting to see
if Miner Willy Meets The Tax Man totok
the platform genre to new heights, as did
the first two. Alas, it was not to be, and all
that remains of the game are a few
tantalising references in various
interviews with Willy creator Matthew
Smith.

State Of Play — Since the extremely disappointing JSW 2 (more of a light) tweaking than a sequel), nothing hass been heard of oil Matt (I wonder wheat he's doing now...).

PARASOL STARS

ollowing on from the brilliant Bubble Bobble and the radical Rainbow Islands, Parasel Stars was one of the most eagerly awaited games of 1992. However, just as it was nearing completion. Ocean's out-of-house programmer suffered a burglary in which his computer, monitor, and all his disks were

stolen — including the ones with
the Parasol Stars source code!

This caught everyone by surprise, including several mailorder software firm who, anticipating its release, had included the game in their adverts.

State of Play — Re-writing the game from scratch would take ages, by which

lime the big advertising push would be lost — Parasol Stars will never be released

The dungareed duo won't be making a third appearance on the C64.

on the C64

RACE DRIVIN' Domark

his rubber-burnin' coin-op conversion, sequel to Talto's classic Hard Drivin', was expected around Christmas 1991. After the miserable attempt to get its predecessor onto the Commodore 64 (the filled polygons moved slower than London traffic), the programmers dispensed with the own-eye 3D perspective favoured by the coin-op, and gave the game the same perspective as the crash replays in Hard Drivin'. It didn't really work. The nail-biting immediacy was lost and the main sprite's animation defied the laws of physics. Domark wisely decided not to release it.

but you're not missing much!

WILDFIREAuthor & Publisher Unknown

ildfire is an ace horizontally-scrolling shoot-'em-up in the Armalyte mould. Unfortunately, during programming an early version was cracked and pirated so heavily that no software publisher would touch it. Rumour has it that the original programmer, unable to sell the game, put it into the public domain. We're not sure whether or not this is true, but it anyone has any further information, let us know.

your guess is as good as ours.

So there we have it — some of these games are no great loss to the Commodore scene, but others promised to be real corkers. Do you know of any more? Write in and let us know — maybe we'll do a follow-up feature, Return Of The Game That Wasn't...

Last week the Grim Reaper strolled into the office. Yes, the black-cloaked one himself showed up to give me a lecture on life, death, afterlife and afterdeath. I wouldn't have minded but I was far too busy compiling tips. Eventually I told him to leave and take his foul stench of disease and rotting hens with him. Fortunately his favourite pastime is Commodore gaming, so he was all-to-pleased to lend a scythe and help out with this months batch of cheats. And what a lot there is! Sceptre Of

Alternative

Opinions were divided over this new release.

Miles thought it was bad and I thought it was plain dire! Anyway, here's a cheat that makes level accessing a lot easier.

Press RESTORE and type 'MERLIN' to enter the cheat mode. As well as having infinite power, you can then select any level you please. Press RESTORE and type 'RESTORE' to exit the cheat. You can still access any level, but no longer have infinite power, though by pausing the game and pressing '2' you get an energy top-up — magic!

Punch the flashing box behind the curtain. Return to the first room and jump down trap door. Pick up the key and leave. Exit the next screen at the bottom to find a screen with shurikens for collection. Nip through the gap in the wall and get past the juggler. Shuriken the man on the following screen and climb the wall-bars before exiting left. Jump the gaps, take the pole and jump back into the last screen. Climb down the wall bars. Leave and go past the juggler. On the next screen, make for the right hand exit. Go through the wall gap and throw a shuriken at the man. Pick up in the tollets. Go back through the wall gap and leave via the top exit. Step through the gap and shunker the man. Pick up the object

in the toilet, go out and pick up again at the hot dog stand. Leave by the top exit to reach the gate. Head for the middle of the gate while holding the key, pick up and exit through the gate. Jump the river by using the boat as a stepping stone. In the next screen there are some bees; avoid them and go up the path, then run and leap onto the Island. Go to the bushes and poke the boat with your stick so it moves away. Get to the bottom edge of the isle, run and leap back. Cross the river using the boat and leave the park to move on to level 2.

The best weapon to have under your belt. With its long range and three-directional fire, it's very effective on invading baddies. Use sparingly, it's surprising how quick it runs out.

Although these cause a lot of damage, their restrictively short range often proves a disadvantage. You're better off sticking to your normal side-arm.

WHEN IRISH **SPRITES ARE** COLLIDING....

Dear Prof.

1. Can you recommend a book on machine

2. What's the maximum number of lines a BASIC program can have?

3. How do I make sprites move around with a joystick?

4. How can I make a sprite collision

Paul McKeown, Dublin, Ireland

As tradition dictates, I will answer your questions in strictly numerical order.

1. I can't recommend any particular book but try your local library. Make sure you get a book that deals with the Commodor 64 and nothing else!

2. A BASIC line can have a number between 0 and 65535. The only limit on the number is the amount of memory. which is reduced if you use a lot of variable

3. See COMMODORE FORCE 3 for information on reading the joystick (get the back issue from the Forcefield Plaza if you haven't already got it, you naughty people). All you need to do is to add to or subtract from the sprite's X and Y positions, eg if you read the joystick and find UP is pressed, subtract 1 from the sprile's Y position to move the sprite UP the screen 4. SS=PEEK (53278):IFSSAND (21/N)=N THEN

collide. If you replace N with the sprite number, it tells you if the sprite (0-7) is colliding. Testing SS again with different values of N will tall you which sprites are colliding.

I'm thinking of buying a printer, but I don't know which gives the best value for money. Is it worth getting a colour printer?

ready....

If I buy the Star LC200 package from Datel (with printer, driver and lead) can I print out sprites from games, etc.

Stephen Weatherhill, Malton, N Yorkshire.

First, the bad news. The Datel LC200 package doesn't include the Sprint 128 interface. You get a Centronics cable (which can be driven by an Action Replay cart) and the driver for printing screens saved to disk. Also, the cable can only be used with a few programs. If you want to print screens from programs, your best bet is to buy the package and an Action Replay (note that ALL material contained within a game is copyright, and should not be reproduced without the copyright. holder's permission)

The good news is that you can still get a Centronics serial interface. This allows you to use a Centronics printer such as the LG200 as a SERIAL printer. Il connects the computer serial port (or disk drive) to the printer, and converts commands so the printer understands them. This allows you to use it with many programs.

Write to: Meedmore, 28 Farriers Way Netherton, Merseyside L30 4XL or call (051) 521 2202, and ask about The Universal Centronics Interlace for the Commodore 64/128.

RED TAPE

Dear Prof.

How do you download on-screen information onto tape? Also, is there a contraption that allows you to talk to people via the computer? It so, what is it, how much does it cost and where can I get one?

Gregor Campbell, Glasgow

 If you've typed in a program, put a blank cassette in the tape deck (checking the writeprotect notches at the top are still there) and type the following;

SAVE "PROGRAM"

The word PROGRAM should be replaced with your program title. The computer now displays;

PRESS PLAY & RECORD ON TAPE

Press down Play and Record, and the screen goes blank. After a while you get the messages SAVING and READY. The computer's now ready to continue. DO NOT SAVE ONTO TAPE THAT ALREADY CONTAINS A PROGRAM.

To reload, rewind to the beginning of the tape, type LOAD and Press Play. It should come up with the message FOUND PROGRAM and then LOADING, then READY. Type RUN, press RETURN and Bob's your uncle, the program's back!

Finally, to talk to people via a computer you need a modern. For further details check out the letter entitled *Thoroughly Modern Man* on page 29 of COMMODORE FORCE Issue Four.

DUTCH BREEZE

Dear Brian.

1. How can I incorporate a tune or screen display into a loading sequence? I have some music, but when I try to play it while loading, it crashes and turns the screen blank. The games on the Reel Action tapes always have something on screen.

2. How can I print more than 25 lines of text? I print the first set of 25 lines, and I want the next lot appear after it.

3. I have a program with music and sprites stored in data. You can skip the music by pressing Space Bar, but if I then use READ statements for the sprite data, it reads the rest of the music data instead. How can I make it read the sprite data?

Alexander 'Sandy' Ensing, Muntendam, The Netherlands.

I get letters from all over the world you know. The Netherlands, Australia, Pakistan, Scotland, Ireland and so on...

1. Unfortunately playing music while loading is virtually impossible in BASIC and almost as hard in Machine Code. This also applies to your

question about the border colour (I edited his letter)

2.Here's a little routine;

PRINT CHR\$(19)

Print 25 lines of text, making sure the last print statement is followed by a semi-colon.
PRINT CHR\$(19)
FOR Y=0 to 24
POKE 781,Y: SYS 59903
FOR Z=1 to 50
NEXT Z
NEXT Y

Print 25 more lines...

This clears the screen, a line at a time, from top to bottom and puts the cursor at the top of the screen to print up the next 25 lines.

3. After the last piece of data for the music, put a line that says DATA -99, followed by the lines of sprite data. After the music's been skipped, add a line that says:

1000 READX: IFX<>99 THEN GOTO 1000
The line should point to itself, and should ONLY
be used if the music has been skipped. It reads
the extra data until the -99 is found, so it's ready
to read the sprite data.

CBM64 DTP & 20MB HD SHOCK!

Dear Sir.

In the February Issue, Richard Evans asked if there's a Desk Top Publishing program available on the C64. There is — it's called Pagetox, and is published by the German company Scanntronik. It isn't cheap (£90), and the manual's in German, but it comes on a cartridge that enhances the C64 with an extra 100 kilobytes of RAM.

Scanntronik also sell a lot of compatible hardware and software, such as handscanners (to digitise photos onto your Commodore), a video digitser, 1000 different character sets, a character editor (to create your own) and lots more besides.

Their address is, Scanntronik Murgrauer GmbH, Parkstrasse 38, D 8011 Zorneding, Germany, Tel: 010 8106 22570.

Martin Steinfort, Woking, Surrey. PS Scarntronik also sell a 20Mb hard disk for the 064.

Cheers, Martin.

MIXED-UP MS.

Dear Lloyd,

I suppose I must congratulate you on the first issue of COMMODORE FORCE — it was a right riveting read, so to speak. However, I'm also deeply distressed and very angry. This is the 1990's, the age of equal opportunities and women's rights, but you lot are a bunch of chauvinist pigs! Where are the women team members? Why is that numb-skull Bash still around when Miss Whiplash has gone? Surely you should have at least one female, or are you all mancy boys (though looking at James Price's hair, I wonder)? Come on girls, what do you think? Print this letter if you can stand a bit of criticism.

Yours most annoyingly.

Ms K Brummitt, Erdington,
Birminghom.

PS Will any of the software companies be releasing a game based on The Ancestral Trail?

We got rid of Whiplash because she was a disgusting sexist stereotype and an insult to our female readers. You want her back in the name of women's rights? I think you ought to re-think your attitude on that one!

I appreciate that most of the COMMODORE FORCE crew are blokes (but not all - our designer, Claire Morley, is female), but unfortunately so are the overwhelming majority of our readers. It's not hard to see why. Pick through your software collection and count the number of games leaturing scantily-clad women who add nothing to the plot. How many times does a game have you rescuing a helpless lemale from the clutches of her evil kidnappers? Look through your magazine collection — how many adverts exploit female sexuality to make a product more attractive? The leisure side of the computer industry has become a virtual allmale preserve, so it's inevitable that when we advertise a vacancy, few (if any) women apply. If would help if you signed your name Yours annoyed and not 'annoyingly' too. though perhaps this was a Freudian slip (LMLWD).

Finally, I've no idea whether anyone will produce a game based on The Ancestral Trail, but I hope someone snaps up the license—it'd be great!

Dear Lloyd,

I am wondering if you have a spare copy of COMMODORE FORCE Issue One? I told my news agent they tried to get it for me, but it didn't arrive - they fried and tried, but had no

FRANK DISK-USSION

Dear Commodore Force,

The other day I boughtt a second hand C64 and about 100 games for £:30 which I thought was too good to be true — I hand one a few years back, but I

Congratulations on CCOMMODORE FORCE Between Commodoress I didn't look at any computer publication of their than PC mags, so it's great to find a well faid-Lout may you don't need a degree to understand My C64 came with a standard tape deck — It notice a lot of games are on disk too. I don't mined about waiting for a game to load, but are there anny real pluses about a disk drive? Also, I love tootbball management games.

Stephen Lamb, Steevenage, Herts

Personally I wouldn't be without my disk drive. Sure, it loads gaames faster than datacorders, but it's a also a lot easier to manage your files on disk. Sawving and loading saved game positions in adviventure strategy games is less of a chore, and if it you ever want to do anything serious a didisk drive's a must. Besides, COMMODORRE FORCE now gives you the chance to get our it ace covertapes on disk what better reason co:ould there be? Regarding football management it sims, check out Kenny Dalglish Soccer Manauager on Zeppelin's Hit Pack #1, or maybe Hi II Tec's Tracksuit Manager.

G-ORE-GEOS

Dear Commodore Force.

I need help and advice on starting a club for the Commodore 64. I'm hying to laurich a Geos club in the West Midlands area

The club will be non profit-making, and all who join pay their own postage and packing. If the club gets off the ground, we'll launch a monthly magazine too.

If you know of any Geas users could you please forward their names and addresses so can contact them?

Mr S Ore, 103 Boldmere Court, South View Rd, Hamstead, Great Barr, Birmingham, 843.

We can't forward names and addresses, but if anyone's interested, Mr Ore can be contacted at the above address.

First I'd like to ask you, please print this letter! And now I'd like to ask a couple of

Do you think that full price companies are selling their games to the budget houses too soon after their original release? I bought The Simpsons only seven months ago at £13, and now it's coming on budget already I think this is unfair to people who pay a high price for a game and means more people will wait for budget releases for £3.99, resulting in full price companies losing

Also, how come pakes never work for me?! I type in everything as I see it and still the only thing that appears on the screen is Data Error!

Noel Grate, Co Coram, Ireland PS Please x1000 print my letter. You probably won't cause it's so long, but I'd like to know some of my questions.

 You know your questions already you asked them, it's the answers you want! You've definitely got a point regarding early budget re-releases. Not only does this irritate people who bought it at full price (and encourages them to keep their money in their pockets next time round), but it also leaves retailers with unsellable stock on their hands who's going to buy a full pricer when you can get exactly the same game on budget? This makes shopkeepers reluctant to stock that company's games again, which isn't good for anyone.

With regards to the pokes, you must be doing something wrong. If you're trying to enter reset pokes without a reset cart, torget it — It can't be done. If you're referring to listings, you'll just have to enter them more carefully

Finally, do you really think I'm more likely to publish your missives if you slap please print this letter' all over it? Just a thought...

US BRONZE

Thanks for publishing my letter entitled 'Role Reversal' in COMMODORE FORCE Issue Three. I felt I must write back concerning the comments made by the person you spoke to (presumably from US Gold).

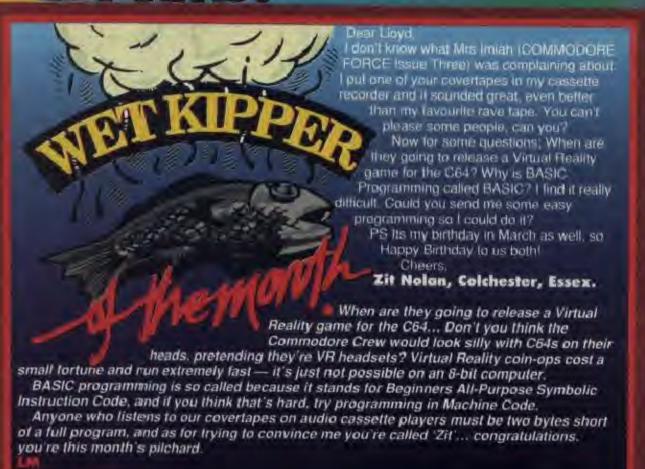

1. He said Savage Frontier was never released on the C64. This is news to me as I've been playing it for quite a while! As proof, I've enclosed a photocopy of the game cover and quick reference card (he's right you know - LM)

2. He also said Secret of the Silver Blades never will be. It was developed and available for the C64 up until 18 months ago, when it was discontinued — it even appears in their 1991 catalogue. So what happened? Hope you can help.

A Wood, Armthorpo, Doncaster, South Yorkshire.

I checked again with US Gold, and they said the game was programmed by Strategic Simulations incorporated, and they only handled the British distribution. The title has now been deleted, and they've no plans to re-order. The only way you'll get it now (apart from that old chestnut, 'car boot sale') is to order direct from SSI using an International Money Order. They can be contacted at: 675 Almanor Avenue, Sunnyvale, California.

Anyway, you're this month's prize-winning scribbler — there's a mystery gift on its way.

PROTECTOR OF THE TIARA

Do you know where I can get a copy of the amazing Defender of the Crown now Mirrorsoft are defunct? The FORCEFIELD PLAZA didn't have one and my datacorder's chewed up my copyl Please help, as I've been scouring the shops for ages

I've found a way of resetting the C64 without a reset carrindge, so reset pokes can be used. By momentarily connecting the reset pin on the user port to the GND pin (marked as pins 1 & 3 respectively on page 143 of the user manual) with a piece of wire, the screen will tlicker for a few seconds and the familiar screen will be shown. Clever huh? The reset poke can now be entered. and the game restarted with the appropriate SYS

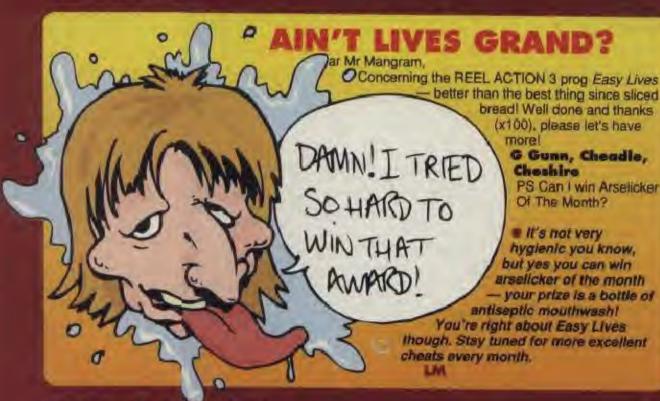

Be careful to connect the correct pins or you might damage the user port!

I already had a copy of Silkworm before you put it on the covertage and it is excellent. I like the look of SWIV but I don't know whether it's worth getting as it's supposed to be very similar to Silkwarm. Would you recommend it?

Danny Kilroc, Deeping St James, Lincs.

Ouestions, questions... regarding Defender Of The Crown, you'll just have to keep on looking — the Forcefield Plaza can get hold of any game that's currently available, but no one

bought the rights to this particular title. Anyone using your rather 'unique' method of resetting the machine does so at their own risk I know it's supposed to work but I've no intention of trying it out. If you blow up your Commodore, don't blame us. Finally, SWIV is an excellent vertically-scrolling, viewed-from-above shoot-'em-up, and it plays nothing like Silkworm, which is horizontally scrolling and viewed-from-the-side.

CART HIM AWAY!

Everyout read the February issue of COMMODORE FORCE. It said on the cover. you own a C64. and a brain?

At last', I thought Two got both, so this mus the mag for me. Alas, although it a great ma was as much use to mu as a chocolate reapor You see. I'm one of the rare breed who own a that takes CARTRIDGES! Is there anywhere t sells cartridge games? Most shops in my area don't stock them. Also is it possible to buy a cassette player or disk drive to plug into my Ci and if so, how much do they cost?

My nine-year-old daughter and I are countin the minutes and praying for enlightenment.

Steven Jones, Llandoff, Cardiff.

PS is there a mag for us cartridge users?

Hmm... when you say your C64 supports cartridges, what exactly do you mean? If you bought one of the more recent packs such Terminator 2, then you've got a normal C6-complete with keyboard, which supports to and disk drives. However, if you've got a C64GS, which has no keyboard and looks I an outsize Fisherman's Friend, you're out o luck.

You can get C64 datacorders from our ve own FORCEFIELD PLAZA (see pages 64-65 and they cost a cool £25.99.

Anyone looking for cartridges should contact Software City, PO Box 888, Wolverhampton WV1 1TP. At the time of writing, they stock thirteen titles on cart. There's no cartridge-dedicated newsstand mag, but if anyone out there produces a lanzine, send us a copy and we'll give it a f

ANY PORT IN A STORM...

Dear Lloyd.

A few months ago I read that Parasol Stars had been nicked and Ocean have yet to decide whether to continue with the project (check out lan's feature on page 22 for the latest news - LM). Well, instead of starting. from scratch why don't they port across the ST version? This will save time and improve the graphics. Please put this idea to Ocean and see what they have to say about it.

Unknown, Anytown, Anywhere

Nice idea, but it just wouldn't work. For starters, the graphics would actually be worse. Every computer has its own screen display, and porting graphics from the ST to the Commodore would compromise their quality — far better to get the most from the C64 in its own right. Also, porting code from one machine to another makes it run extremely slowly. Ever seen one of the early Dizzy games? Ever played Chase HQ? They were Spectrum ports — I don't know if it's even possible to modify 16-bit code (I suspect

Once again it's a nice idea, but we'll just have to face the fact that Parasol Stars will never be released on the C64. Oh, and by the way, as you didn't sign your letter, I'm not signing my reply.

SPECTRUM CHUM

I'm absolutely funous about the 'Spectrum' comments in your magazine. I've owned a Speccy for

quite a wrille, and I'n proud of it. Having acquired : C64 from my brother. I bought Issue Three of COMMODORE FORCE — there were loads of nasty Spectrum' jokes, most of them about the graphics. As an owner of both machines (tell you Speccy graphics are often far superior, eq Space Crusade. Onpage 49 there was a remark about the lite expectancy of Spaccy mags. There are two on the market (he same as for the C64), one of which has been golig for ELEVEN years, the other SEVEN. Come on Loyd, us 8-bit owners should stick

Gavin Smith, Belfast, Northern Ireland.

Much as I hate to admit it, you're right about Space Crusade. The C64 version should've been the better of the two, but for reasons unknown it, er... wasn't. I've had several complaints about the Speccy jokes, and on reflection I feel you all have a point — the 'my machine's better than your machine' argument was always pretty childish, and therefore best left to console owners. I still can't help feeling that the Speccy's days are numbered, but I'll make no more jokes about it promise.

CRAZY IDEA

To Lleya.

While reading the Crazy Cars III review in Issue Two, I had an idea — a screenshot caption read. 'Oh, wow! A screenshot that looks like every other screenshot on the page. Don't blame us, we didn't write the game! Why don't you write a game and put it on the covertage, or better still put if on sale and get some more dosh to improve the magazine? You seem to have most kits and all except James (like, man!) seem to know how to work them Nathan Weston, Blackpool, Lancs

The magazine doesn't write itself, you know - we could spend all day every day programming covertage games, but at the end of the month there d be nothing to mount them on. Also, using kits is a lot harder than you think what makes you think our games would be as good as this month's ace SEUCKer, for example? Besides, all kits are somewhat limited - the chances of getting a utility game onto the shelves are pretty remote.

taken from your marvellous missives.

Is Ocean's Comic Relief game Sleepwalker the same as Zeppelin's Sleepwalker's JM Word, Accrington, Lones.

No, they're completely different. The Comic Relief version WILL be available for the C64, but not for a while yet.

Why doesn't COMMODORE FORCE have a classified ads page?

DUTCH SLEAZE?

On purchasing a copy of the March edition of COMMODORE FORCE. I was stunned and disgusted to see the pictures from the Butch Breeze demo on pages 61 and 62.

My son and his friends buy the magazine, and they're aged between seven and eight. Do you really think this is suitable for that age group? Needless to say, none of them will be allowed to purchase your mag again until you promise to clean up your act.

D O Tighe, Tamworth, Staffs

Er, over to the Man Ed for this one, methinks!

Firstly, may I goint out that the only reaction to the piictures you mention have been your letter and a telephone call from a similarly concerned parent. Far less than I expected, but still enough for me to stipulate, right here in black and white or whatever colours Claire decides to use), that no way will pictures as strong as that appear between our covers again.

I'd like to add that I thought long and hard (no pun intended) about using the somewhat saucy images in the first place and decided that they would be acceptable provided the really naughty bits were covered (which they were). There was nothing shown on pages 61 & 62 that couldn't be seen in daily papers throughout the land, but I accept that a computer magazine isn't the right environment for pics of this nature, and will ensure that, in future, they don't appear

And by the way, for anyone who missed out on our marvellous March mag. back issues are available through the FORCEFIELD PLAZAL

ith the arrival of the stunning *Trolls* this month, we thought we'd give you the chance to share our jubilation. T'was a momentous occasion when it plopped through the Force letterbox one fine morning, and everyone in the office thought it was well worth the wait — a top-notch offering in every conceivable respect.

It's been a while since we last saw the crew literally fighting for the next go on a new game. The sight of our jolly selves locked in mortal combat was therefore greeted with some surprise from the (very) odd characters who wander into the office from time to time. As it turned out rank won through in the end. Steve reminded us who was editor and wouldn't let anyone else play all morning. Fortunately we got our revenge by hiding all his biros. He still doesn't know where they went. Ha! Anyway, we couldn't possibly keep all this to ourselves so we've teamed up with Flair for a great Trollish

Computer-magazines; don't you just love 'em (especially the one you're reading)? A cheap alternative to the glossies are fanzines, says REMI 'ROVING REPORTER' EBUS. There's more to them that meets the printing press too... disk-magazines are here!

Legend

hock from the coding group LEGEND is a Dutch Production excelling in design and originality. Starting life as a print-and-paper magazine under the CULTURE label, Shock had no trouble gaining popularity. Awesome artwork by MIRAGE and an interresting range of subject matter made it the most eagenly-sought magazine on the

When CULTURE splitt and the Shock staff ended up in two different groups, the end of the magazine seemed imminent. It was saved when the Shock members who jamed CENSOR DESIGN decided to bring out a disk version. They released twelve issuers before both editors left CENSOR and LEGEND took over the mag. The Inneenth issue features two playable game previews. Fight For Friedom by VICTRIX and Monbund by TWICE SEFFECT, but we co here. bund by TWICE EFFECT, but we re here to look at the magazine, not the previews. Since Shock is procduced by **LEGEND**, there is no front end intro - you're confronted with a menu after loading the main file. The menu looks exactly the same as it did under CENSOR DESIGN (except the CENSOR logo's gone), two elves holding a menu on which the ten chapters are signposted.

The chapters feature US and European news and charts. Where most magazines publish all the news they can get their hands on, the Shock team print what they've gathered themselves, mostly about bulletin boards. The charts are compiled by people calling a Bulletin Board Service which functions as Shock HQ. This lets you vote for your favourites for the next issue. Shock is very BBS minded, so it's not surprising they've got a special board section in the magazine with board news. numbers and even reviews.

There's also two interviews, (one US guy one European), but by far the best feature in Shock has only been published twice. That's the chapter where the Shock staff follow a certain rumour and ask the people involved for their opinion. Some of the responses are hilarious.

Shock is THE magazine to read if you're into modem-trading, and even if you're not it keeps you up to date in the world of boards, baud rates and

Turkey, and has been voted the best C64 disk magazine currently available! Script was called Cemetery News when published by BRONX, but when BRONX became CLIQUE, Cemetery News became Script

At the moment Script's the biggest disk magazine available on the C64, with over 20 chapters and around 2000 blocks of uncrunched text (considering this column's about 60-70 blocks, that's an awful lot of reading). With commercial magazine editor REMIX in the driving seat, Script's the magazine for your average scene follower wit lots of news and charts compiled from over

Script depends on feedback from their readers, and the stancard is usually high. There are several chapters where readers can state their opinions on subjects like the tuture of the C64, the computer elite's lamers, tair charts and anything else that's currently a hot topic

Presentation graphics and music change after almost every issue as Script give talented newcomers a chance to show their work

Other chapters feature a graphics slideshow and a demo sent in by readers, and the editorial where REMIX writes whatever he wants. Script's best quality is that it's not alraid to discuss controversial topics such as discrimination or the Gulf War. Readers then comment in future issues, offering a much needed platform for discussion.

Mega-Industries

And last, but certainly not least

es, it's yet another Dutch magazine, but in my opinion this is the best of all (but I would say that cos I'm the editor). One of the longest running magazines currently available, its radically different outlook is exactly what its readership wants.

The first issue was published on paper, but never got the attention it deserved. Years later it was relaunched on disk, putting a whole new perspective on the magazine. Straight from the relaunch issue. Remark was a success. By then there were already dozens of disk magazines, all looking remarkably similar except for the group's name above the menu. Visually Remark was no exception, but editorially it was very different indeed. Instead of informing the reader it's main aim is to entertain, with chapters such as Crap Attack, a section full of crap (and probably inspired by our competitors — Dep Ed).

Interviews featured in Remark are always with the big names, like MARIO VAN ZEIST (programmer, aka HAWKEYE), JEROEN TEL (remember the interview a few issue back?) and more recently the ROWLANDS BROS (*Creatures* 1 & 2).

Their party reports are more like a stories, giving the reader the feeling that he's there — ta better than just stating who attended, what was released and who won the competition.

RECALL

members all over the world, has grown into the

best swapping group around (they do other things as well, but somehow tithis is never noticed by the masses). Being one of i the best trading groups ever, their products area very well distributed and that's the main reason for Brutal Recalls success—everybody who's annybody gets a copy of it.

Compared to Script i it's more of a news magazine. Brutal Recall reports happenings on the scene, while Script gives opinions about them and asks for reader's vviews.

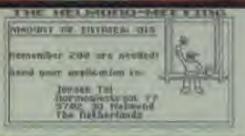

Their menu's pretty ssimple; on the left there's the chapters, on the rigght the utilities (word hunters, music editors, i, etc). They get most of their news from contacts and boards, and as **BRUTAL** has members all over tithe world there's always a member in the neighboourhood. As well as useful addresses which everyly magazine has, **BRUTAL**

RECALL also prints all BBS numbers from all over the world.

BRUTAL RECALL has a red-hot news section, great information, addresses, BBS numbers, dates of forthcoming parties and everything a scene member needs. It's perfect for newcomers too.

remunh

The news chapter doesn't feature the usual material found in other magazines, but interesting stories about what happened during the last month. And as they're an official magazine, they take their game and demo reviews very senously.

Hemark is THE magazine to read if you want to be informed but entertained as well. All you need is here... and more!

ould you believe it? A computer game based on a fast food chain! So what's it going to entail? Selecting the correct queue in order to get served quickest? Or perhaps you'll fight for a seat before being forced to sit on Ronald's lap in the kiddles section? Well it's nothing like that actually, it's a platform pounder in the Mario Bros tradition.

The devious Hamburglar has stolen Ronald McDonald's magic bag and the only people who can retrieve it are the seriously-cool MC Kids (YO!). Thirty levels and seven worlds await in this leap-around extravaganza. From what we've seen so far.

Take tennis, shrink the court, replace the racquets with wooden bats and mount the whole thing on a piece of furniture. CHRIS 'WOODEN TOP' **HAYWARD** first pings then pongs...

he only TV coverage I've seen of table tennis was a contest between two Frenchmen who turned the event into a theatrical performance. They ended up playing on a toy table the size of a shoe box, and since that day I've had no respect for the sport at all.

Despite lurking in youth clubs all over the country, ping pong has a surprising number of serious followers, with international tournaments being held every year. Zeppelin's own version is a straightforward ball-and-bat bash, inheriting attributes from the old monochrome paddle game imaginatively-titled Pong. Unlike the ancient version, this rendition does have a decent view of the table (the original didn't even have a table), with the players represented by the bats that they're using. The winner of each game is the first to reach 21 points, after which the participants change ends. Lots of options are on offerconfigurations include ball speed, skill level, hand grip, tournaments and even the colour of your bat. An additional selection is the expedite rule, which basically this means should 15 minutes pass with the game still in progress, service alternates between players until one gains the required victory score. Up to eight people can partake in a tournament, the winner receiving a trophy from the ever-radiant Miss Lovely.

The Ping's The Thing!

The abundance of options vastly improves what would've been a dank game. Table tennis is hardly the most exciting sport to simulate, but

 Apart from the twoplayer element and a few options, this little effort offers no more playability or depth than the trousercreasingly encient Breakout. Graphics and gameplay are from equally uninspired buckets. 'Drab, drab, drab sang the terrapins, and they were right. In lairness, Table Tennis isn't a bad game for what it offers. The problem is it doesn't offer enough. Variation of shots is minimal, detracting from the satisfaction of winning, making it a seriously run-of-the-mill affair.

the choices available enhance it to a moderate degree. I can't help feeling that the programmers copped out when it came to producing the main sprites. While serving stewed hog to a group of lepers Bob heard of Manan's capture, so after several hours deciding between a beautiful damset and a learn of flaking peasants, he set off to Nottingham to confront the low-down law officer. So begins another arcade platform crusade, based in the bowels of Nottingham Castle where Robin jumps treacherous gaps, avoids fire-spitting gargoyles and skewers guards with flaming arrows.

The castle corridors aren't as easy to navigate as you'd expect. Only by collecting keys can you open certain doors and activate litts, taking you lurther into the fortress and nearer to Manan. To beet up your points and ger more valuables for Robin's charity shop, you collect treasure chests and priceless articles the sheriff carelessly left lying about. The hooded one has three lives, and can take three hits per life. Extra energy is found in the torm of heart rooms.

The C64 isn't short of this game genre, but Legend Quest contains a certain spark that sets it aside from its competitors. Apart from the usual jump-and-shoot routine, there's a small puzzle element requiring some serious thinking. For instance, secret passages only open it you stand in the correct place or jump on a particular barrel. You don't need to cover every screen to progress, but it it's treasure you're after then stern amounts or grey matter needs utilising. Robin's animation is great, cheerfully jogging along and pulling back an arrow as it carefully taking aim—superb. The backgrounds are joily but a little dull in places, and the enemies are

wonderful to behold, brimming with colour and character as is Robin himself. He strides confidently about the platforms with a merry expression on his face, and the animation as he raises his bow to fire an arrow is excellent. Though very tricky, this is a great little game which (incidentally) knocks the spots, stripes and mottled patterns off the

in need of a lick of paint — the dwarf's shocking! What really grinds against the game's favour is the bad control method, which undermines what could have been a high scorer. Being unable to change direction in mid-air is not only annoying, but also unnecessary. The early Dizzy games had the same problem, but it was rectified in the later ovoid adventures — why isn't it here? It may not be humanly possible, but for a game laced with obstacles it helps enormously.

Many dangers are impossible to pass without losing energy, which is blatantly untain I like using skill and judgment, but when pin-point accuracy STILL isn't sufficient you can't help feeling the armies of trustration slowly advancing. Seek it out, but study hard before parling

 Carnage is very much in the Super Sprint mold, but unlike the old rubber-burner this is fun to play! Heck no, it's darned brilliant! Not only is it eye-blindingly fast, it's also a great laugh. Razzing 'round corners and leaving mines for unsuspecting opponents is ace!

The inclusion of damage meters and pil-stops add a strategy element — if you thrash around and hope for the best, your damage meter reaches critical and your vehicle's reduced to a spluttering crawl.

Super Off Road Racer was also an admirable car-chaser, but the controls in Carnage handle a lot better, allowing for some serious fast-paced challenges. It's not flawless but its faults are outweighted by multitudes of

speed and handling add-ons and a large dollop of high-speed collisions and you know you're in for a mega wheel-spinner.

There are four competitors in all, with either one or two human racers joining in the action. The graphics are pretty neat, with small but well-defined cars ripping 'round eight single-screen courses. Collision with roadside scenery causes damage to your car. If your damage meter reaches 'full' you chug to a near-standstill, crawling agonizingly slowly to the pits to get it fixed. Needless to say this takes time - do you go for full repairs and wait for the meter to clear, or do you risk a quick patch-up and get straight back into the race?

The opening contest seems more like a Sunday drive than a hell-for-leather demolition derby, but it's important to finish as far up the field as possible - the better your finishing position, the more prize money you get.

Tactical foresight is required when buying extras. Up to four grades of engine can be purchased for extra speed. Acceleration's sluggish at first but can be souped up as the racing season progresses. and better tyres are needed for pin-point cornering. If you want to stack the odds still further in your favour, splash out on some land mines. Just when your opponent's steaming up behind you having bought a new Turbo Nutter 500bhp monster engine, a quick tap on the joystick sends him up in a plume of smoke. Very satisfying! Nitro-boosts give a short-term burst of speed, but use them wisely - it's all too easy to lose control and smash into the barriers.

At the end of each race, final positions are shown and points are awarded. A human player must finish in first place to qualify for the next track. With two players it's advisable to come to an

know when they're on to a good thing — they lightly tweak a successful movie and call it a sequel!
Lethal Weapon's supposed to be based on all three films, but is it as derivative as its celuloid counterparts? CHRIS 'SAME AGAIN' HAYWARD investigates...

It's always interesting to see how film licenses are handled. Capturing the excitement of a movie is a hard task, especially when the license in question is the entire Lethal Weapon trilogy! I suppose originality would be too much to hope for, but depression really set in when I realised Ocean have plumped for yet another platform shooter.

Having got over my initial disappointment, I checked out the scenario against which the comical cop's capers are set. After failing to defuse a bomb and blowing up a building in the process, detectives Riggs and Murtaugh are back in uniform. To legal their detective's badges (and their dignity), they must clean up five unsolved police lifes.

Each case takes you to various locations within the city. After taking on the Export Gang on board a ship, you must win back the subways from evil terrorists. On later levels you rescue Leo Getz from a disised steelworks, nd the

 The slime encusted third level plays exactly the same as all the rest collect the powe-up for extra firepower. police station of a bent copper (well this is Los Angeles), and track down the mastermind behind an organized crime conspiracy.

Before sorting out the bad guys you must decide which cop to control. Riggs is more athletic than his partner and jumps that little bit higher. Murraugh, on the other hand, is a veteran with lirearms and his gun-shots are more rapid. After selecting your Hollywood bobby. it's on to the first mission. Gameplay remains the same throughout, leaping moving platforms, jumping gaps and blasting baddles The villains come in many forms, but they all act the same - just shoot them before they shoot you. Gun clips are collected to keep your ammo in a healthy state, and evidence (in the form of magnifying glasses) adds to your score. The only other power-ups are large hearts (extra life), small hearts (extra energy) and a gun (rapid fire)

Dorivotive Drive

Apparently the game's based on aspects of all three films, but the string must've been very foose on this tie-in — similarities between the movies and the game are pretty remote. The fact that it's a seen-it-all-before platformer wouldn't be so bad if there was at least a small measure of variation, but after five minutes you've seen everything it's got to offer.

The sprites are respectable enough, even though they do little justice to their silver-screen counterparts (Riggs' boutfant is hilarious, and where are Murtaugh's trousers?). The levels are large, but there are no restart points. It's off to the beginning of the level should you lose a life, something that soon tries your patience. Also, as soon as a section loads you're chucked straight in, with enemies blasting away before you get chance to pick up your joystick. Hardly sporting now, is it?

After reading the manual I expected a decent game, but the gameplay bears little relation to the plot. For example, on Level Three (the factory raid) you're supposed to locate and rescue Leo, a small-time crook who can help with the investigations, but you don't. Nor do you find the money on Level One, or Level Five's bullets. They may count as evidence but retneving a magnifying glass instead of a person is really boring, especially when you're promised rescues in the instructions! To cap it all, the collision detection's dubious and completing the game on your first attempt is entirely possible.

The old phrase 'a missed opportunity' was written for Lethal Weapon. The potential for a riproaring game is there, but unfortunately it remains unexploited — sad really,

Several years later, a Detreit cop called Alex Murphy got half his brains blown out by an unpleasant gang of thugs. What was left of him was encased in huge metallic exoskeleton, impervious to all but the most powerful of weapons — Robocop was born!

At first there's a strong need to progress to the next stage, but when this factor evolves into frustration the game over' message can't arrive quick enough. Robotcopi is also found in the Superstar Seymour bundle, and compliation filler sums it up. Got five minutes to spare before nipping out? Then this fits the bill. gangsters or muggers with baseball bats here. The real criminal tratemity consists of power-crazed snowmen and deadly freezers, with armies of suicidal snowballs and psychotic penguins. Seymour undergoes yet another metamorphosis to become Robotcop, crime-buster extraordinaire.

Each level's made up of a single-screen maze. The boss is usually located near the centre, with his villainous compatriots patrolling the surrounding area. These can be punched or grabbed using Seymour's extendible bionic arm, but avoid contact as this is fatal. Captured baddies can be thrown against a wall and killed, or even used as a missile to down another dastardly deviant. Once you've destroyed all the roving baddies, you then arrest the boss and move to the next level.

A plentiful supply of pick-ups are left by blatted baddles. Most are simply for points, but be quick and you can get add-on weapons, extra lives and bonius letters. Collect the letters R-Q-B-Q-T-C-Q-P and the current screen is automatically completed, taking you to a bonius screen where you collect as many add-ons as possible within a time limit.

If you have a memory span approximately 398769.23 times that of a goldfish, you'll remember that this was reviewed a couple of months back as part of the *Superstar Seymour* compilation, earning a solid 72% from my good self, but how does it stand on it's own ments? Oute welf, actually, Jolly arcade antics suit this budget release down to the ground. Some chirpy intro screens and a bounce-along ditty keep proceedings lively and cheerful without threatening to blow the mind. In-game graphics are clear, colourful and enhanced by some quality FX.

On loading you choose between a two-player practice match or one-player tournament mode. Pick your character from the four available - 'Macho Man' Randy Savage; Hulk Hogan, Bret 'Hill Man Hart and The Ultimate Warrior.

The tour begins in the Brittanic Arena, London, with your opening bout against the fearsome Typhoon from The Natural Disasters tag team. A variety of moves are available, accessed by positioning the joystick and hitting fire. Moves are context-sensitive; for instance, if you're standing still, hitting the lire button makes you punch or kick depending on your distance from the opponent, but if you're running, you perform a flying kick. When you floor the other guy, be quick - you can give him a couple of kicks to the head before he gets up.

There are several ways of putting your adversary on the canvas. You can climb onto one of the ring posts and jump on him, or bounce off the ropes and charge him down, though this takes pin-point timing. The easiest method is to beat him in a grapple. Waggle the joystick repeatedly, and if you're quick enough you pick him up and throw him. Should this happen near the ropes, chuck him out of the ring and follow him out to continue the brawl. Be careful though any fighter out of the ring longer than ten seconds is disqualified! When you've downed your opponent you can attempt a pin, but if he's got too much energy left he'll break it.

Silveter of Money inc. and findly Esgs of the Masty Boys, Bool them all in each of three European equatites (British, France and Germany) and you take on The Mighly Animal from Legion Of Doom at Meddlenn Square Garden for the Chambionship.

The sequel to the C64's best (though not brilliant) wrestling sim is a less fully affair than its predecessor. Front-end intra screens consist of a credits list and a passable representation of the WWF logo. Recognisable mugshors of the 'superstars' add flavour, but again there's nothing autatanding. With the tour supposedly taking place in various venues across Europe, you'd expect a variety of armospheric backdrops. As it is, every arena looks identical apart from the country's national flag in the top

The one-player game's slightly disappointing. A respectable number of manoeuvres are included, but most aren't required - a couple of moves fox the opposition every time. For example, if you climb onto the bottom left

hand post the computer opponent stands exactly where you can jump on him! If you get a mate to join in, though, things improve as a of more thought and tactics are

That ring looks very ropey to us there again, maybe it should! (Groan).

After the official WWI game was released a spate of grapple sims hit the scene, all with one thing in common — they were terrible! Graphically WWF 2 sequel to the first and finest of the current batch, is competent with detailed superstars and lots of colour being used. There are plenty of moves to get to grips with, and it's the best two-player wrestler to date.

Singles competition's are a major let-down though; they're far to easy because of the computer opponent's low intelligence. You can control any of four wrestlers, but gameplay would've been improved if you could compete against these guys as well as the computer's own.

If you've plenty of friends, the two-player mode keeps you more than a happy. If not, stay with the original.

The Hit Squad,

They're back! Just when you thought it was safe to go back into the arcade, the Space Invaders return! Last time it was hors d'oeuvres, this time it's lunch. With the human race as the main course, MILES 'SPACED OUT' GUTTERY ain't sticking around for dessert...

iffin's ever-more excited noises drifted through the open window. Glancing across. I noticed the time-machine he was dragging across the lawn. With a sigh I left my chair and sat at Piffin's side, just as the time machine melted out of literal existence. Several minutes later, we reappeared some years earlier on a seafront promenade in Southern England. Piffin skipped off towards the candy floss stand, but I had other ideas...

It didn't take me long to spot what I was looking for. Six identical machines fined the far wall — Space Invaders, one of the first coin-ops to hit the arcades! The graphics were terrible in those days. A monochrome screen projected onto a printed backdrop, giving the impression of colour. Even so, the gameplay soon made it a household name — an ultra-simplistic left-right-fire affair, all you did was

• Eee, they don't make 'em like they used to, do they?

move your craft along the bottom of the screen and blast the hordes of aliens descending ever closer to mother Earth. No power-ups, no bonus screens, just good, honest fun.

Even on such a simple game factics soon emerged — for example, blasting the baddies at the edge of the formation slowed down their rate of descent.

Half an hour and countless vaporised aliens later I re-emerged, and spent several seconds squinting out to sea. Piffin was nowhere in sight. Shrugging, I set the time machines circuits for the heady days of 1990.

No one took more than a passing interest in Pitfin's contraption as it materialised in the centre of Skinny Joe's Amusements/Surf Shack. Unperturbed I went about my business.

There it was. They'd tagged the word 'Super' on the front and added some pretty backgrounds and a few enhancements, but it was still the same game I'd played a few minutes earlier in 1979. Sure there were a few power-ups and some snazzy presentation screens, but do they really make a difference? Mulling this over. I headed for home...

Ace investers:

A significant improvement made by coin-op creators Tengen is the addition of collectable power-ups dropped by mother ships crossing the top of the screen, eg. rapid fire, time-stops, extra shields, etc. Pretty backgrounds are the last thing you want when 70-odd aliens are coming at you, and some of the more involved ones obscure enemy bullets, causing annoying accidental deaths. There's some amusing bonus stages too like the 'Cattle Mutilation' screen in which you protect a field of cows from swooping alien hordes intent on sucking them up and whisking them away. Watch out, too, for the aliens who stretch instead of exploding when hit, and some very

impressive end-of-level baddies.

THE SIMPSONS — BART Vs THE SPACE

h no, space monsters have invaded Springfield, home of oddball cartoon ramily. The Simpsons.

The aliens want to build a super weapon and take over the world, but luckily for us they're having trouble constructing it. They need certain items that are scattered around each level, and it's up to Bart to thwart them.

On Level One they're after anything purple. Bart must clash around with his trusty can of spray paint (haven't these people heard of the ozone layer?) turning offending objects red. Some items appear impossible to reach, but fortunately our spiky-haired young hero can purchase helpful equipment in many of Springfield's shops, such as rockets, cherry bombs and a magnet. I'll leave you to work

his game has an identity crisis — is it WWF Wrestlemania as it says in the instructions, or WF Wrestle Mania as preferred by the box? Ho hum...

Whatever it's called, it's easily the best game on the Superlighters compilation and second only to The Simpsons on The Dream Team. The sprites are big and bulky, the animation's pretty neat, and for once there's a decent game in there tool it's not perfect — the multi-load's more initiating than it has to be, and that sitly name-calling at the pre-fight press conference... c'mon lads, how many bytes did you waste on that?

TERMINATOR 2

Reviewed as a budget re-release last ish.
Arnold flaming Schwotzizname reemerges for the umpteenth time to replay his
most famous role.

Four game-types are spread across nine levels, with each section representing a scene from the film. Level One has the T800 (Arnie) trying to batter the T1000 (the bad guy) in a shopping mall, while teenager John Connor makes good his escape. This section is a one-on-one beat-em-up with punches, kicks and even a head-butts at your disposal.

Amie and John then link up on a motorbike, and are pursued into a storm drain by the evil one who's hijacked a large truck. The way is littered with rubbish and debris which must be carefully negotiated, but don't hang around too long or the truck mows you down (shades of Spy Hunter, methinks — Dep Ed).

Having evaded your pursuer. Level Three has you patching Amie's damaged hand. This is achieved via a slidey block puzzle thingle. The nearer you are to completion when the timer runs out, the more energy you get at the beginning of the next level.

Level Four is set in the mental hospital where Sarah Connor is incarcerated. Help her escape by dashing around the hospital duffing roving nurses.

Each of these styles is repeated in the game's other five levels, which is a shame because none of them are much cop, and nor are they in any way original. Excellent presentation screens fail to lift this above the mediocre. It might be worth a (brief) look, but my opinion hasn't really changed since last month.

he Dream Team is truly a mixed bag — varying characters, varying styles and varying quality. The pick of the bunch is easily The Simpsons, with its colourful graphics and zany plot. WWF isn't outstanding but it's still the best C64 wrestler around, and the only real let-down is T2, which only sold on its license. The Simpsons and WWF were released on budget the month. With T2 already out as a cheapie, it costs less to buy each title separately than as a £15 compilation. Some bargain!

FIGHT

he more I see this game, the less I like it. In the arcades it was an average basher, with only the superb digitised graphics justifying its floorspace (the curious 'scaling' as a fighter walked in and out of the screen was technically impressive, but little more than a gimmick in gameplay terms). The Commodore 64 version doesn't cut it at all. On reading the instructions you find the title's been spell three different ways, which sets you up for the sloppy quality of the game. The scaling's gone, the sprites have shrunk in the wash, and as for the animation. the fighters move like Thunderbirds puppets with stiff joints!

Pit-lighters a dog of a game. Poor graphics, jerky animation and lack of any real excitement make it one to avoid

School Pt lessons were never like this... Ripping around the playground in Formula I cars? No-holds-barred wrestling behind the bike sheds? Bunking off down the boozer for a game of Pool? CHRIS 'SICK NOTE' HAYWARD dons a pair of short trousers and re-lives his childhood...

CUE BOY

here are two first-time releases in this compilation, *Que Boy* being one of them. The sport in question is Pool, and you're a hot-shot boy with erm. a cue. The baize table covers most of the screen, with a few selection loops across the top

o Codalinatura. £13.00

nyone remember Sport Billy, that odd canoon character from several years ago? He'd be surprised by the sports of today. Wrestling. Pool I and Speedway never seemed to feature in this atrocious animations, let alone the tactical skillss of football management. He might be impressed with this five-game bumper pack though, sso let's investigate...

SLICKS

he ultimate goal of any helmet-clad motor freak is to win the Grand Prix, one of the most famous and dangerous circuit competitions around. Slicks captures all the thrills and spills of the contest, pitting you against several top racers over six international tracks. You have a bird's-eye

view of each circuit, with the track scrolling in four directions to follow your car. Before each race you have a practice tap, determining your grid position and helping you to familiarise

yourself with the twisting bends before competing.

Formula One cars are highly powerful, but when you start you're seated in a Benetton, and their cars are as bad as their adverts (perhaps it's the one that caught lire — Dep Ed). To improve yourself, you can challenge another driver before each race — finish ahead of him (o her) and you swap cars.

The two player head-to-head contest also adds depth and lastability. The scrolling follows the car in front, so the aim of the game is to scrolline other car off the playing area. He then loses a light from his status screen, which is given to the other player. Knock out all his lights and you've won!

Slicks is a classic. Single-player competitions are really tense. Going all-out to update your spluttering Benetton is a real challenge, and defeating a top-class driver is highly satisfying. The head-to-head works really well too, and the

smooth scrolling combined with lively pace make it a spin to delight all boy-or-girl racers.

INTERNATIONAL SPEEDWAY

here are several ways to get covered in mud. You could wrestle with Martika in a vat of Pursian soil (a particular favourite of mine), dig out the dirt between Milo's ears (one to avoid) or rip 'round an earthy track on a motorbike with no brakes.

Funnily enough

there's not a hint of mud in International Speedway, even tough it's a simulation of awesome proportions — at least that's what the packaging proclaims.

In this, the compilation's other new release, you must climb through the ranks and become the top bike buff. The main screen display shows the track in a second-person 3D perspective, with an overhead view of the track showing the position of your opponents in the lower half. The bike sprites are excellently animated and work well with the fast-scrolling track, though something has to be sacrificed for speed — the background scenery's nothing

but a huge emptiness.

For the life of me I can't see why a few different tracks weren't included. Okay, so all speedway courses are the same, but riding around in endless circles is hardly edge-of-your-seat stuff. Later races are very hard to complete

endless circles is hardly edge-or-your-seat stuff. Later races are very hard to complete owing to the unfeasible difficulty level — staying on the track is hard enough, let alone overtaking a fellow biker, and a two-player version (in my book, a must for any sports game) could easily have been included with just a smidgen more work.

Initially fun, but the steep difficulty curve and samey tracks take even hard-core bike lans to the limits of their endurance.

These include strength of shot, positioning of the cue ball and an ext option. Shots are played by moving a cursor around the table, the ball being aimed straight towards it. Hardly comprehensive, but do limited options always kill off a would be winner? Maybe not, but don't expect an 8-bit version of Jimmy White's because depth is one element you

The humour brings a smile to your face even when it's not supposed to. The referee's cursed with an immense nose, and if you foul he charges onto the screen waving his arms and burbling speech — it sounds pathetic, but I was in hysterics. Another rib-tickler occurs when playing the computer. A little chappie runs across the table and stands over the pocket the computer's aiming for

Truly bizarre and exceptionally pointless, but a laugh nonetheless.

Cue Boy's easy to get into, but this is due to its limited aptions. For example, every Pool and Billiards sim should have is a 'line of shot' icon where an imaginary line radiates from your cue ball, showing exactly where it'll go and enabling varied plays (off the cushion rebounds, etc). Cue Ball's more of hit-and-hoper

Because of the slack user involvement, Pool lans will find it mildly playable at first but become all too aware of the monotony which follows

eviewed on budget a couple of issues back, this simulation of the brutish theatrical brawl didn't fare too well. The moves and grappling techniques could be more complex - in fact they're so sparse they're hardly any use at all. You spend most

who makes the decisions that's held responsible

Becoming a manager is a weighty challenge, and if you think you're up to it then First Division Manager provides a simple introduction to the world of footy management but note the word 'simple'. The match highlights are well displayed, but managerial manipulation is very basic. The information on each player is kept to a minimum, and during matches you can't change your orders! This is

fine when all's well, but being unable to give the team new advice when you're four goals down is extremely disheartening.

KENTUCKY RACING

ow here's a weird one. Based on the fairground interpretation of the sport of kings, Kentucky Racing has you rolling a wooden ball up a slope peppered with holes, the aim being to sink it as high up the board as possible. Your horse then moves forward a number of spaces, depending on where your ball fell. Joystick controls are fairly friendly, and one or two-player games are catered for.

With only two players (and a third CPU-controlled horse), the game

inevitably loses some of the nail-biting atmosphere of the 'arcade' version, but the frustration felt while waiting for your ball to return is accurately reproduced. Despite its somewhat limited appeal, its only real fault is that the horses look identical, making i difficult to tell where you are.Not bad for a quick play though.

• Alternative, £3.99 Cassette

It's four-midable... It's four-tuitous... it's — Four Most Super Sports! But will you play it four-ever, or is it best four-gotten? IAN 'COMMODORE FOUR-CE' OSBORNE investigates...

Iternative's 4-Most range has been a little quiet lately. Can't think why. Everyone loves a compilation, and some of their four-game packs were pretty good value. Still, they're back now, but with a bang or a whimper?

CHAMPIONSHIP SPRINT

LOVE Super Sprint clones, but this effort's an

insult to the genre.

Played on a single screen, you pelt your tiny car round the track using the usual 'accelerate and rotate' method. There's a host of options on offer (accessed through pull down menus), and even a track editor to design your own courses.

When you get round to actually playing the game you soon wish you hadn't — the cars toddle along at a steady crawl, they bounce of the track-side walls as if they were made of rubber and the courses are far too complicated, making the game tedious instead of transic.

GRICKET International

The screenshot on the back of the box didn't exactly inspire confidence in the game (a green expanse of nothing), nor did the

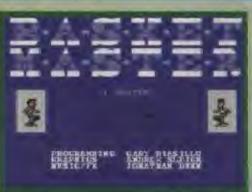

signature tune (On Hilkley Moor Tha Tat—Yorkshire stereotyping, no doubt), but only when you get into the game proper do you realise what a disaster it actually is. Huge, blocky sprites body-pop their way across a featureless field, the perspective keeps changing so you can hardly keep track of what's happening, and the update is slower than Steve's Skoda with Miles and Chris pushing

US BASKET MASTER

mm, not bad — not bad at all! Opting for the one-on-one approach allowed the programmers to cram in some lovely sprites and animation that wouldn't have been possible in a

team game, even on a scrolling court. The usual basketball tactics are well supported, such as slam-dunking, shielding the ball from your opponent, long throws, etc.

It takes a while to get used to the control system, and in one-player mode the computer-bod plays like Michael Jordan even on beginner level. Best pick a two-player game and play it by yourself until you've got the hang of it!

Like real basketball, the rules are blindingly

incomprehensible and they're not printed on the inlay either. Even so, this is still the best game on the compilation.

CONCLUSION

US Basket Master's the only good game, with Kentucky Racing a worthy filler and the others to poor to mention, so I won't mention 'em. You wor feel too ripped off if you buy the compilation for Basket Master alone, but don't expect any long-to enjoyment from the rest of the pack.

ESTATE WERE AND THE PROPERTY OF THE PROPERTY O

Bash knows all about dragon slaying — he did get rid of whiplash after all! Perhaps he could give Corya some tips...

CORYA THE WARRIOR-SAGE—DRAGON • The Guild,

£3.00 tape or disk.

n the holy mountain of
Tanel-An-Ulhen stands the
citadel of the Ancient Ones,
where the lucky few are taught the
way of the Warrior-Sage, Seldom
do they venture forth into the
world of men, but this tale is
of one such priest — of
Corya the Warrior-Sage!
Corya spent many years
travelling within the realms of
Tannen, but seldom was he seen
unless the need was great.

The buildings of Ermahal were not unlike those of other small settlements in the land. Second only in size to the great hall was the village tavem, where many a merchant told of tales of terror as they sipped ale.

Tive heard there's a dragon in the mountains,' began one such yarn. It attacked Allarik on the western edge of the mountains. The whole village was destroyed, it even took some of the villagers back to its nest for later!' Silence filled the tavern. Few saw a dragon and lived As the Tavern-keeper locked up and settled down in front of the fire, a

chilling scream cut the air. Racing outside, he was met with a dreadful sight — pandemonium scourged the village. Buildings were ablaze, lighting the midnight sky with a red glow. Everywhere villagers were running in no particular direction — all were trying to escape from something, but what?

The merchant who told the tale earlier clambered past. Barley, the

Tavern-keeper, grabbed his arm and shouted 'What's wrong?'

Doesn't it dragon?

'The dragon! It's hen the dragon that attacked Allarick!' He struggled free and fled Turning once more towards the village, Barle

reeled in horror — in the distance, silhouetted be the burning buildings, was the dragon. An inhuman cry screeched above the sounds of panic and Barley was rooted to the spot as the monster swept towards him. A second cry was last thing he heard as he was engulfed in a ball flame. Several times the dragon circled the villa and attacked before sweeping off into the night. Atop a small hill overlooking Ermahal, stood Corya. Seeing the devastation, he heard their prayers...

This is the dramatic setting for Tony Collins' latest adventure. Starting on the hill above the village, you descend to see what help you can offer. Lots of magic is needed right from the star as the people and creatures you meet are usua hostile.

Careful interaction is essential as most of the initial problems cannot be solved alone.

The first of the game's three parts is taken up by getting equipped for the journey and initial exploration within the vast forest. There's an exciting trip down the river in store, and you so find yourself rescuing a poor soul who's been captured by nasty natives.

The second part's even more thrilling as you attempt the rescue and recover a stolen artifact. It's essential that you free the man a he provides essential information. After lots a legwork and exploration you reach a hidden underground city. The third part has you solving the many problems in the city itself, and struggling through icy passages until reaching the final dramatic encounter with the dragon.

To say this adventure is atmospheric would be an understatement! Detailed location descriptions and response messages carry you ever onwards through one of the most absorbing adventures I've played in years. Clever pause during interaction with other characters add statements to the tension.

Once again Fony's clever use of text proves you don't need graphics to enhance an adventure — just an imagination. This is the si that true adventures are made of and excelled value for money.

BELLE SERVICES

ollowing on from last month, here's a few more words of wisdom on how to tackle adventures.

Nearly all games have dark locations, so you'll probably need as light source. Not always though — in Infocom'ss Planetfall there were loads of dark locations, and the only light source was in a room filled with deadly radiation. The answer was not to entter those useless dark locations.

Your source of light can take many shapes and forms, but it's usually a candle, a torch, matches or a fantarn of some sort. Lunterns usually need oil. Whattever you come across, it's likely to grow dim and go out eventually — if you don't need it. TURN I'll OFF!

If you find a dark location and have no light, source, look for some oily rigs and branches.

and make your own. I've seen some strange light sources in my time; fireflies, will-o'-the-wisps (to catch and put inside a miners helmet), and even an octopus (many hands make light work — groan). One final word about lamps — always rub them, there might be a genie inside!

Be careful how you move in dark locations.
Always save your position beforehand as it's
extremely dangerous. You should be able to leave
a dark area the way you entered, but try another
direction and you could fall to your death.

You may find weapons lying around. Flemember, hacking down everything that moves is definitely NOT recommended! Sometimes the mere sight of a weapon is enough to scare off the baddles. The golden rule is don't affack unless threatned, that homble Yeti might show you a secret exit at the back of his cave.

If you come across animals like bears and dogs, try feeding them — perhaps you have a smelly bone, or a pot of honey. Being animals they usually grab the food and slink off to eat elsewhere (or promptly fall asleep). Cats, dogs and other domestic creatures can be tarned or

stroked. If they back away in fear, perhaps you're holding something that frightens them. Trying to catch the pretty singing bird rarely produces results unless you're holding a cage.

cage.

If there's a hook on the wall, there could be a rope or chain to tie to it. It's always best to pull on it first though, as the hook may snap. Ropes can be fied to all sorts of things, but try throwing them too. In The Hobbit and Black Knight, if you enter THROW ROPE ACROSS' on the river bank, it lands in a boat which you pull towards you.

Cracks and crevices must always be investigated, if it contains a small metal object that you can't reach, try poking it out or look for a magnet.

Finally, here's some hints on chealing the program into helping with problems; if you think you need a rope (for example) but aren't sure if the object exits, try 'DROP ROPE. You could be told. I don't understand the word 'rope." which usually means there isn't one, but 'You aren't holding the rope. Implies that it's there somewhere!

MARIE WATE

rs Gregory of Blackpool has made it across the river in BLACK KNIGHT, but can't do anything with the cow. She thinks she has to milk it with the bucket and stool but can't find the right commands. Also, in ATALAN she's collected the treasures but doesn't know what to do next. If you feed the daisies (from the village green) to the cow, then the command MILK COW works wonders. In ATALAN, are you sure you've found all the treasures? When the last treasure's found, a rescue boat appears.

Someone else stuck on ATALAN is Niall

Costigan of Sutton. At the altar under the waterfall, the help message reads 'When in Rome...' The author was rather cryptic here. When in Rome, do as the Romans do — people put offerings there once, so you should do the same. Try the honey. Also he can't cross the river, despite the message 'the Chinese, if they knocked their ideas logether, would shoot across this'. Chop the bamboo and 'knock' it into a ratt with hammer and nails.

Mrs Nelson of Huddersfield is stuck at the end of CASTLE BLACKSTAR. She reckons she's done everything, but can't operate the broomstick. The commands you need are SAY ABRACADABRA, U. U. TOUCH STARS, IN. N. N. SE, E, PUSH BUTTON, W. N. N. SAY FRIEND, OUT and GIVE OBB.

Jason Whittaker of Norwich is having trouble with GUILD OF THIEVES. He's missed the Rat Race. It's important you enter — it takes place approximately 50 moves from the start, and you MUST bel on it to get the cheque from the gatekeeper instead of just the birdcage. The money for your bet is hidden inside the cushion on the settee in the castle (a five Ferg note). Go to the courtyard in time for the race, EXAMINE RATS and USE NOTE TO BET ON GREY RAT. It wins. Use your winnings to buy the lute from the miller later on.

That's all there's room for this month.
Write to Bash with your adventure posers
and I'll let you all pick my enormous brain!

Join me again next issue when I'll be reporting from the Blue Peter studios. There I'll demonstrate how to slay a valkyrie with an empty bottle of Fairy and some sticky-backed plastic! Only kidding, I'm using Persil liquid really!
